UNIT STATUS — NO MODAL NEEDED

/s <handle> <status> (also **/status**, **/st**)

/s M21 av → Medic 21 → Available
/status E2 disp → Engine 2 → Dispatched
/s Engine 2 dispatched → multi-word names work

Available	av avail available
Busy	busy
Unavailable	unav unavail unavailable
Dispatched	disp dispatched dp
Enroute	en enr enroute
Responding	resp responding
On Scene	os onscene on scene
Transporting	tx transp transport
At Facility	af atfacility at facility
In Quarters	iq inquarters in quarters
Out of Service	oos out of service

Status word is read from the END of what you type. Statuses needing extra info (destination, reason) route you to the unit's **S** key modal instead.

NET-CONTROL ZONE MOVE

/z <team> <zone>

/z alpha 3 → Alpha → zone "3"
/z echo clear → clears Echo's zone

Requires an active event selected on the Net Control board first.
clear / **none** / **off** all clear a zone.

NET CHECK-INS — CAPTURE A ROUND IN ONE LINE

/net <id> <note> / <id> <note> / ...

/net 1234 tornado / 3344 hail

First word of each entry is the identifier, the rest is the note. Separate entries with **/**. Opens the situational screen with the check-ins loaded.

WHILE THE BAR IS OPEN
